PRODUCTION OF FARM MACHINERY SPEEDED UP

PLEDGE INCREASED THRESHER OUTPUT -- Scanteia, No 1391, 2 Apr 49

Workers of the Unio Railroad Car Foundry in Satu-Mare have requested that they be enrolled in the mechanization of agriculture program. The foundry was assigned a production quota of 25 threshers to be completed by 30 June. Parts and equipment for the threshers have arrived, and the workers have now pledged construction of 30 threshers instead of the planned 25 by 30 June.

ASSEMBLY OF THRESHER FRAMES -- Scanteia, No 1389, 31 Mar 49

Workers in the Roman State Metallurgical Plant have reduced the time required to assemble thresher frames. The original norm was 53 hours but this was soon reduced to 30 hours. On 20 March, workers and technicians devised a method which reduced the assembly time to one day. Since this date, the slogan of the plant has been "a thresher frame per day."
